

Coolplus

Enjoy More Comfortable Laser Treatment

SKIN AIR COOLING SYSTEM

Pre-Cooling

During Treatment Cooling

Post Cooling

Coolplus

The Newest Generation Of Cryo Therapy System

Unlike other cooling methods, such as contact cooling, cryogen spray or ice packs, the Coolplus can cool the epidermis before, during and after the laser energy has been applied, without interfering with the laser beam. The Coolplus decreases the skin temperature quicker, with less risk of skin burns and keeps a constant dosage throughout the entire treatment time.

Contact Cooling

Ice Packs

Cryogen Spary

Coolplus is designed for reducing pains, redness, swelling and thermal damages caused by laser treatment, Intense Light (IPL) treatment and Radio frequency (RF) treatment.

Round Adapte

For reducing the skin temperature of small treatment area, such as eyebrow, underarm, forehead.

Middle Square Adapter

For reducing the skin temperature of middle square area, especially for hair removal treatment, such Arm, under arm, leg.

Large Square Adapter

For reducing the skin temperature of large treatment area, such as thigh, belly, especially for hair removal treatment.

Advantages

Three different sizes of air outlet design, suitable for treatment of different parts of the body.

Super cooling system, the minimum working temperature reaches $-30\text{ }^{\circ}\text{C}$.

User friendly design software system, easy to operate.

Germany imported 1500W high power air compressor ensures that the system can work continuously for a long time.

The Coolplus features cooled air for efficient pain treatment, swelling reduction and muscle relaxation. The system enables Cryo Therapy with precise placement and at a constant dosage, every time. The device uses no consumables and delivers high power. This enables a quick decrease in superficial skin temperature, while maintaining the ability to operate all day.

Specifications

Controlling screen : 8.5 inch touch screen

Power : 1500w

Temperature range : -4°C~-30°C(adjustable)

Fan speed : 1~6 (adjustable)

Defrosting time : 45s

Net weight : 85kg

Treatment Fuse : 2m

Voltage : 110V, 60hz,6A, 220V,50hz

Dimension : 865*419*854mm

Package size : 906*463*906mm
